

Creating Individual Account Access for DVA Users

Please note that you cannot access the login page from the VA network, since that network is already registered.

Go to the below link from outside the VA network:

<http://www.webedition-dva-sanfordguide.com>

You will notice the Log In & Register boxes to the right:

Click on Register to get to the Registration Form.

Follow the instructions to create your account.

Be advised that only Valid V.A. Email addresses will work with this process.

Passwords must be at least 5 characters or more to validate your account.

Note:

1. Your device of access must accept cookies for validation.
2. Simultaneous logins are not permitted.
3. This will not work from the VA Network or System.

Protect your login information.
